A Strikingly Handsome Range

The owner of a Pandora is always proud of the impression this strikingly handsome range makes upon her neighbors.

The solid, compact appearance of the smoothly finished body, the bold, large pattern of the carving, and the brilliance of the heavy nickel coating, combine to produce an effect that is distinctly pleasing to the eye of the most critical

observer. The Pandora Castings undergo a "special process" to make them easily and quickly take a lustrous shine.

The Nickeling is done with extraor-

dinary care-will not chip and crack like the nickeling on or-

dinary stoves, but will retain its smoothness and brightness for years. Because of the ab-

sence of any fine, fa sence of any fine, fancy carving, which catches and holds the dust, the Pandora is much more easy to polish and will remain clean longer.

Altogether, the Pandora is a

ery superior range. Il your local dealer does not sell the Pandora, write direct for free booklet.

Many parents are blamably negligent of their children's eyes, early attention to which would very often avoid his-long discomfort and possible injury to general health. If your child complains that he can't see clearly, has dull pains in the eye region, leers, looks askance or with partly closed eyes, it, is yours parental duty to consult a COMPET-ENT Optician.

The examination of children's eyes requires special ract as well as professional skill. If glasses are not necessary or medical attendarcs be, our optician will tell you so.

Great Wallpaper Fire Sale

Since the fire and until the present time our Wallpaper ck has been very much confused. We have spent three eks in arranging it, that we might handle the sale speedily

About 40,000 rolls of our paper was absolutely untouched ing been in the next block, over Quick & Robertson's store

We have selected from the fire stock of Wallpaper, all that can be of any service and placed it in the new sale room with the uninjured stock making a total new, which will go on sale of about 09,000 rolls.

We are making the reduction of such a manmoth figure that the entire stock may be closed out in a couple of month's time. We are showing some papers which were fifty cents a roll, now at Ten Cents per roll, also many papers at le and 2c per roll. The greater the damage, the greater the discount flut remember we have about 50,000 rolls not damaged a par-ticle and all on sto.

The entrance to our Wallpaper cales rooms is the san rance as, Dr. Ca'dwell's dental rooms, immediately ove ick & Robertson's store.

In connection with this WONDERFUL WALLPAPER SALE we are prepared to supply you with paper hanger, if wishing to use paper at ones. Many have already purchased paper to put aside until spring.

The opportunity is yours and every one will know that repaper is all modern and new goods, in every sense of the

Our Office, Stationery and Fancy Goods sale will continue this weak, until we have sold off everything damaged, when we will immediately replace same with a thoroughly up-fa-date stock in the old store, which will be immediately reflitted.

OTHING can equal the satisfaction there is in offering to your guests a satisfactory form of entertainment, one that takes care of itself, which does not interfere with other forms of amusement, but rather helps them. Such an entertainer is the Edison Phonograph.

It can amuse the guests

by rendering music, popular or classic, or it can aid them by furnishing dance music, marches and other things played by the best orchestras and brass bands. It costs less than the hiring of even a small orchestra for a single evening's entertainment.

Don't be without an Edison Phonograph if only for the sake of your friends. Hear the new model with the big horn at the nearest Edison store, or write for a booklet describing it.

We Desire Good, Live Dealers to sell Edison Phonographs in every town where we are not now well represented. Dealers having established stores should write at once to National Phonograph Company, 100 Lakeside Ave., Orange, N. J., U.S. A.

SIGN OF A GOOD SHOE STORE

THE "Sign of the Slate," hung in front of any Shoe Store is sure testimony to four significant facts.

> 1st-that store is the most reliable in that town or it couldn't get the agency for "The Slater Shoe."

2nd-that it pays its bills promptly, in cash every thirty days, or it couldn't hold "The Slater Shoe" Agency.

3d-that it is satisfied with a reasonable profit on goods or it wouldn't be selling "The Slater Shoe," which is price-controlled by the Makers.

4th-that it sincerely intends to give the best value possible, and to deal "squarely" with its customers every time, or it wouldn't have signed such a contract as must be signed to control "The Slater Shoe."

Whether you buy Slater Shoos or not, a safe place to trade is at the store where swings "The Sign of the Slate" - for the four reasons given. The genuine Stater Shoo kas the

slate frame brand stamped, with the Makers' price (\$4.50 or \$5.00) on the lining.

Stanfield's Underwear

Spinning

The Stanfield mills are monuments to the value of good machinery. The won-derful spinning machines do an incredible amount of work, and do it better than

even the best spinning wheels can do. As the Maritime farmers send their best wool to the Stanfield mills, it is washed—carefully sorted—and shrunk. It then goes to the combing machines, which comb out all short lengths, weak strands, and leave only the toughest,

This goes to the Spinning Machines, where 18 machines do the work of 16,546 women with spinning wheels.

It is by using such improvements that Stanfield's Unshrinkable Underwear can be so good and yet cost so little.

The pure Nova Scoda wool—the best lis the world for Underwear—listures with, confort and wear. The Stanfield process of taking the shrink out of the wool, before the garments are worsen, makes absolutely unknishlab underwear. The Stanfield way of combing, lasting, cutting and sewing (which will be described laters) lasters the completed garmens being statisfactory in every way.

Stanfield's Underwear is made right here in Canada. There is no duty to pay on it. It is made by Canadians, who know what Canadians need in the way of protection for Canadian winters.

It is made in all sizes for men and women from 22 to 70 inches.

RED label means light weight-BLUE label means medium weight—BLACK label means heavy weight. Your dealer has all sizes and weights, or can easily get them for you.

THE secret of a happy home is entertainment. Home should be the most entertaining spot on earth for the family, and it can be for the very small amount of money which an investment in the Edison Phonograph would mean. Mr. Edison's Phonograph supplies the entire entertainment. It will sing, render any kind of instrumental music or talk. It is a marvelous reproducer of every kind of sound and especially of the sort of sounds which, combined, produce music.

If you haven't seen the new Edison model with the big horn, by all means go to the nearest Edison store and see, and more especially hear, it. It's a wonder in its way. Descriptive booklet on request.

December Records Out Monday

WHILE it has been hard to make a Record of just the right consistency to be durable enough to stand lots of wear and at the same time delicate enough to give the most perfect rendition of sound, yet Mr. Edison has produced by his secret processes the most perfect. Record for Phonographic use that has yet been made. Go over the list of Docember Records, check off those you would like to hear and than go to the naterat Edison store and hear them. This is the way to get all the pleasure out of your Edison Phonograph.

PANDORA FLUES

The Pandora Flue System is an Immense Improvement

While we don't desire to say that the al flue construction is not good, for it is considered good, still we do say that the Pandora flue system is an immense im-In the ordinary range the flues con-

duct the smoke and heat by the shortest route to the chimney (as shown by illus. not pass directly under all pot

In the Pandora (illustrated in upper left hand corner) when the draft is set for baking, the heat, by means of m curved flange, is made to pass under and heat every pot hole except the back

inner one, before it is drawn down the outer half of the back end flue and under the oven-a dividing flange under oven bottom prevents the heat from short cutting, and forces it to travel, first under the outer half of oven, then under the inner half.

The result is that the beat is spread uniformly over the oven. And every losf of a whole batch of Sread will be done countly well on all sides.

From under the torn the heat travels up the inner half of back end flue, and passes under the back inner pot hole before disappearing up the

Thus it will be seen that all the heat circulates around the oven twice and under every pot hole before it goes up the chimney—that the draft for baking is also the best for cooking.

And, as the heat is made to perform a double duty by this improved system, the fuel bill is greatly reduced.

The most economical as well as the most improved range on the market to-day bears the name Pandora. It's a name worth remembering when buying a range.

If your local dealer does not sell the Pandors, write direct to us for free booklet.

Great Wallpaper Fire Sale

Since the fire and until the present time our Wallparer stock has been very much confused. We have spent three weeks in arranging it that we might handle the sole specifity.

About 40,000 rolls of our paper was associately untouched, having been in the next block, over Quick & Robertson's store.

We have selected from the fire stock of Wallpaper, all that can be of any service and placed it in the new sale room with the uninjured stock, making a total new, which will go on sale of about 60,600 rolls.

We are making the rediction of such a manmoth figure that the entire stock may be closed out in a couple of months time. We are aboving some papers which were fifty cents a roll, now at Yen Couts per roll, also many papers at leand 2: per roll. The greater the damage. the greater the discount, But remember we have about £00.0 roles not damaged a par-ticle and all on safe.

The entrance to our Wallpaper sales rooms is the same strance as Dr. Caldwell's douter rooms, immediately over sick & Robertson's store.

In connection with this WONDERFUL WALLPAPER SALE we are prepared to supply you with paper hargers, if wishing to use paper at one. Many have already purel-aced paper to put aside until spring.

Great Wallpaper Fire Sale

Since the fire and until the present time our Wallpaper tock has been very much confused. We have spent three rocks in arranging it, that we might handle the sale speedily.

Abous 40,000 rolls of our paper was absolutely untouched ring been in the next block, over Quick & Robertson's store.

We have selected from the fire stock of Wallpaper, all that can be of any service and placed it in the new sale room with the uninjured stock, making a total now, which will go on sale of about 50,000 rolls.

We are making the redection of such a mammoth figure that the entire stock may be closed out in a couple of mostle's time. We are abswing some papers which were fifty cents a roll, now at Ten Conts per roll, also many papers at le and 2c per roll. The greater the damage, the greater the discount. But remember we have about \$0,000 rolls not damaged a par-ticle and all on sale.

The entrance to our Wallpaper cales rooms is the same entrance as Dr. Caldwell's dental rooms, immediately over Quick & Robertson's store.

In connection with this WONDERFUL WALLPAPER SALE we are prepared to supply you with paper hangers, if wishing to use paper at once. Many have already purchased paper to put asido until spring.

The opportunity is yours and every one will know that our paper is all modern and new goods, in every sense of the word.

Our Office, Stationery and Fancy Goods rale will continue this week, until we have sold off everything damaged, when we will immediately replace same with a thoroughly un-to-date stock in the old store, which will be immediately reflitted
